STEPS FROM IDEA
TO LIVE WEBSITE

11

A real website with **your name** on it

Pick a project you care about: a family bakery, a lemonade stand, a club page. Tonight it gets a home on the internet.

One page. Built by **you**, guided by AI.

TRY THIS

Write down one small website idea. Right now.

Collect. Prompt. Build. Ship.

Eleven steps grouped into four easy moves. Each one takes minutes, not days.

**TRY THIS**

Make a folder called 'My Website'.

01 COLLECT

Pictures, colors, sections

4 STEPS

02 PROMPT

Fill the spec, enhance it

2 STEPS

03 BUILD

Generate, pick, polish

04 SHIP

Publish free, add a .com

1 STEP

Find inspiration images

Start on Pinterest. Search for the kind of site you want and save the looks you love to one board.

pinterest.com ↗

TRY THIS

Make a board and save your first 3 pins.

5-10

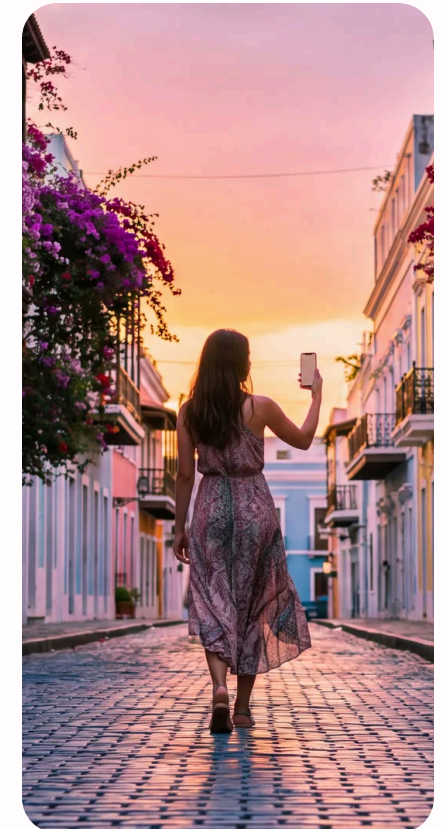

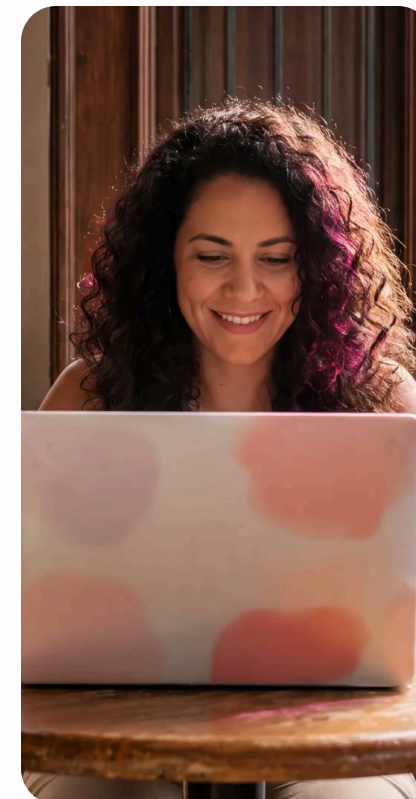

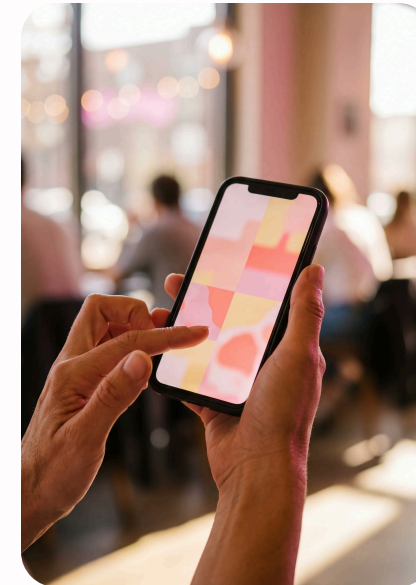

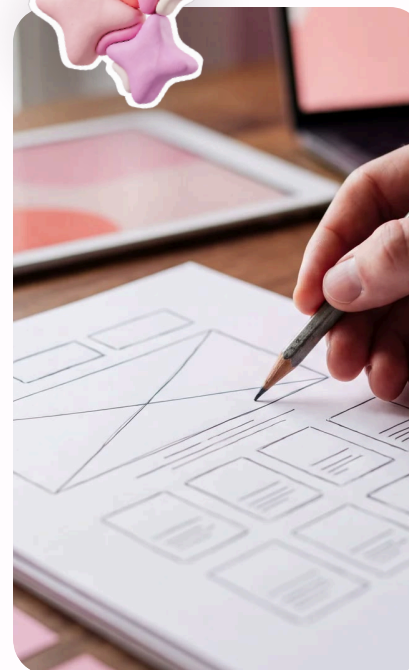

pins is the sweet spot

SEARCH FOR

“bakery website design”

“landing page UI”

“portfolio web design”

Find inspiration animations

OriginKit is a free library of animated website pieces. Find one or two effects you love and copy their links.

originkit.dev ↗

TRY THIS

Save one link. Write its section: 'Hero'.

1-2

animations per
site is plenty

E.G. HERO → SOFT FADE-UP

Plan your sections, top to bottom

List your website's sections in order.
Always start with the Navbar at the top,
then the Hero. After that, it is up to you.

**TRY THIS**

List Navbar, Hero, plus five more.

7 sections make a
great first site

Mash it into one design spec

Take what you like from every inspiration piece and describe it in one prompt. Colors from ColorHunt, layout from your list, moves from OriginKit, mood from Pinterest.

TRY THIS

Next: write what your site is for, in one line.

= YOUR SPEC**ONE PROMPT**

- 1 Purpose, in your own words
- 2 Section order from Step 4
- 3 Color codes and a mood
- 4 OriginKit link per animation

Fill in the blanks

Copy this template. Replace every highlighted blank with your own words and links.

- 1 What it's for, and who it's for
- 2 Your section list from Step 4
- 3 Your 4 color codes + a mood
- 4 A section name, like Hero
- 5 Your OriginKit link

originkit.dev ↗

TRY THIS

- ☒ Copy it. Fill all five blanks. Save it.

TRY THIS

Run it with the two models on the right.

YOU PICK THE WINNER.

A = Gemini-3.8-flash

B = Claude-sonnet-5-high

Try it on Google Stitch too

Paste the same enhanced prompt into Google Stitch. It designs screens you can preview and export as code. Now you have more options to choose from.

STEP 9 NEEDS A PAID CLAUDE PLAN

Pro or up, about \$20 a month, on a grown-up's account.

TRY THIS

Ask a grown-up to set up the Claude plan.

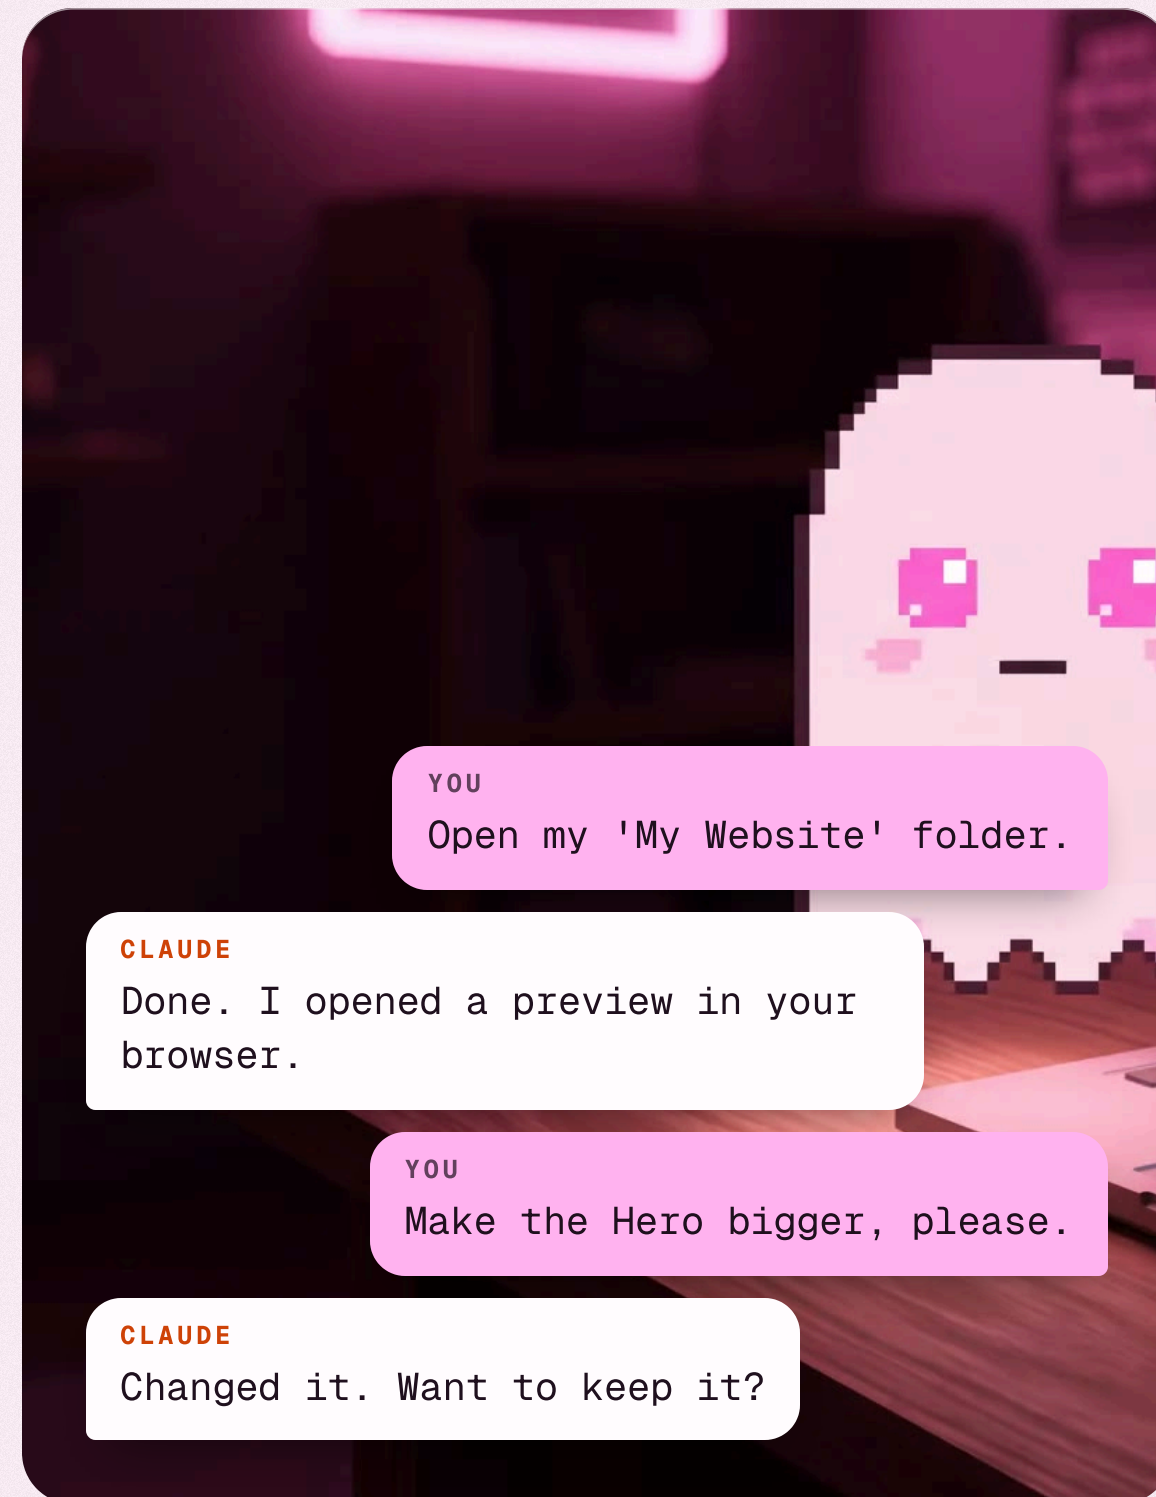

THREE CLICKS

1 DOWNLOAD the Claude app for Mac or Windows

2 CLICK the **Code** tab at the top

3 CHOOSE the folder **My Website**

Stuck? Ask Claude: "Help me open this folder."

Say this to Claude, word for word

This first message sets up everything: it tells Claude you are new, what the file is, and how to guide you.

1 Tells Claude you are new

2 Says what the file is

3 Asks it to guide you

TRY THIS

Copy it. Paste it
into Claude. Enter.

STARTER PROMPT *COPY EXACTLY*

1 This is my first time creating a website. Help me polish and finish the website design.

2 I downloaded this from an online tool and would like to work on it locally until we have a final version. Familiarize yourself with the file, open it for me locally so I can see the changes, and let's work section by section from top to bottom, including the elements and anchor links. This is a single page website, static.

3 Guide me through all this process.

Publish **free** on GitHub Pages

GitHub Pages hosts static websites at no cost. Your site gets a free address like `yourname.github.io`.
